Re: Progress report on the UN and IAAP activities, specifically involving the membership

Today (Sunday) Walter and I had a discussion about involving the IAAP membership in the UN, following up on proposals that had been raised last year. The proposals are:

- 1) Invite the membership, through Michael or the office, to become part of the "virtual subcommittee" on UN activities. These members would be on a separate email list to receive information about the UN so they can have input, to the Board and to Walter and myself, so we can represent their interests.
- 2) Invite the membership to send in their papers and work, so we can present them to the DPI office to be included in the Library materials. This makes their work available to those who use the library for resources related to UN DPI NGO activities and interests.

Let Walter and I know your thoughts.
