

CALL FOR ARTS TEAM LEADERS

The Advanced Research Training Seminar (ARTS) is currently looking for five engaged postdoctoral or early career researchers in psychology to become team leaders for ARTS 2018, which will be held two days (24th- 25th of June) prior to ICAP 2018.

WHAT IS ARTS

The ARTS are capacity-building workshops that take place every four years in conjunction with the International Congresses of Applied Psychology (ICAP). ARTS promote excellence in research skills and facilitate exchange and dialogue amongst early career scientists. ARTS are organized by the International Association of Applied Psychology (IAAP).

HOW DOES ARTS WORK

ARTS has several components:

1. *Learning* – Participants have the opportunity to follow several online seminars on general topics (e.g., writing funding application, performing statistics, and knowledge about a particular aspect of psychology).
2. *Research* – ARTS participants work on a project with their peers in groups of three to five people. Team projects are defined and led by the team leaders and consist of the creation of a research protocol on a specific topic.
3. *Feedback* - During ARTS, participants have the opportunity to present their own research (poster) and to receive feedback from their peers and team leaders.
4. *Presentations*- Teams will present their team project at the symposium organized by ICAP 2018 and will have an opportunity to hear suggestions from renowned experts.
