

CALL FOR ARTS PARTICIPANTS

The Advanced Research Training Seminar (ARTS) is currently looking for twenty to twenty-five engaged students with experience and passion for research (Masters level or higher preferred) in psychology to become participants for ARTS 2018, which will be held as a part of the ICAP 2018.

WHAT IS ARTS

The ARTS are capacity-building workshops that take place every four years in conjunction with the International Congresses of Applied Psychology (ICAP). ARTS promote excellence in research skills and facilitate exchange and dialogue amongst early career scientists. ARTS are organized by the International Association of Applied Psychology (IAAP).

HOW DOES ARTS WORK

ARTS has several components:

1. *Learning* – Participants have the opportunity to follow several online seminars on general topics (e.g., writing funding application, performing statistics, and knowledge about particular aspect of psychology).
2. *Research* – ARTS participants work on a project with their peers in groups of three to five people. Team projects are defined and led by the team leaders and consist of creation of a research protocol on a specific topic.
3. *Feedback* - During ARTS, participants have the opportunity to present their own research (poster) and to receive feedback from their peers and team leaders.
4. *Presentation* - Teams will present their team project at the symposium organized by ICAP 2018 and will have an opportunity to hear suggestions from renowned experts.

PROJECTS

ARTS participants will have to apply for one of the six following projects:

1. Multicultural Approach to the Study of Myths about Trauma and Disasters
2. Learning Experiences and Entrepreneurial Intentions among College Students
3. Refugees and Immigrants Crisis in the 21st Century: A Hindrance or Challenge in the face of Job Insecurity in Europe?
4. Contextualization in Contemporary Cross-Cultural Research: An Agenda for Arbitration
5. Re-Thinking Healthy Lifestyles: An Ecological Approach to the Psychological Understanding of Sustained Physical Activity and Healthy Nutrition
6. Self-Compassion, Resilience, Coping and Psychological Well-being

More details regarding the six projects are available at <http://icap2018.com/arts>
