

CALL FOR VidRESEARCH

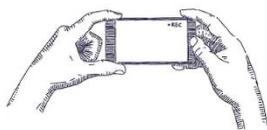

Dear colleagues!

Are you a young researcher involved in a project on *applied psychology*? No matter if you are undergraduate, graduate or PhD student, we count on you!

While the knowledge in *applied psychology* keeps getting bigger and bigger, we need to make it more and more accessible to everyone. You know what is said: **a picture is worth a thousand words**. Hence, how much does a video worth?!

Because we want to shorten distances, Division 15 launches a new project for young researchers to share what projects they are involved in. This is how **VidRESEARCH** is born. Either if you feel a little bit stuck, you would like to get fresh ideas or you just would simply like to spread the word about your project, **VidRESEARCH** is your channel.

Send us a video explaining us the project in which you are involved, and we will share with the world. How do you have to do it?

- You can record the video with your **phone or camera** (don't worry about "professional

recording", the most important aspects are you and your project!).

- It must be **3-5 minutes long** (if you feel like, you can also send a 50 seconds version for us to upload it on Division 15 social media).

- **Introduce yourself and your project:** tell us about how you decided to start in your research, in which University/Organisation are you based, your country...
