

Dear members of Division 8!

We are thrilled to begin our preparation for the IAAP Centennial conference, to be held in Cancun, Mexico, December 2020.

It seems very far away yet time flies and therefore we wish to start preparing in due time. Our division 8 has the opportunity to suggest few integrated symposia to be held by the division members.

We are approaching you, our members, to see who would be interested in organizing an integrated symposium for this event. We welcome all sorts of potential focal points, theoretical as well as methodological, as long as they represent aspects of applied psychology relating to any health matters.

Please note that this open call does not imply immediate acceptance. Each proposal will be scrutinize by the division 8 executive board. The board only is responsible to make the final decision on acceptance, pending quality of the suggested symposium, and its relevancy to applied health psychology. We sincerely hope that many of you will be motivated to organize such an integrated symposium. We are very much looking forward to your active participation!

Please get back to us by June 15, 2019, in case you would be interested by replying to Dr. Noa Vilchinsky at: [noa.vilchinsky@biu.ac.il](mailto:noa.vilchinsky@biu.ac.il)

Best,

Sonia Lippke, President

Noa Vilchinsky, Communication officer

Opportunities  
for Talents

The **Technical University of Munich (TUM)** invites applications for the position of

## Tenure Track Assistant Professor in » Health Psychology «

We seek to appoint an expert in the research area of Health Psychology with a focus on the promotion of mental health. This professorship should address lifestyle change related factors and physical activity as interventions to promote mental well-being and to prevent mental illness. A *joint appointment* with the TUM School of Medicine is anticipated.

### Scientific environment

The professorship belongs to the Department of Sport and Health Sciences which is committed to further strengthening its expertise in the area of Health Sciences. The successful candidate is expected to establish cooperation both within the Department of Sport and Health Sciences and with other Departments of TUM such as the School of Medicine, the School of Life Sciences, the School of Governance, or the School of Education.

### Responsibilities

Responsibilities include research and teaching as well as the promotion of early-career scientists. The teaching load includes courses in the university's bachelor and master programs, especially in the B.Sc. program Health Science and in the M.Sc. program Health Sciences – Prevention and Health Promotion.

### Qualifications

We are looking for candidates who have demonstrated initial scientific achievements and the capacity for independent research at the highest international standards. A university degree and an outstanding doctoral degree or equivalent scientific qualification as well as pedagogical aptitude, including the ability to teach in English, are prerequisite. Substantial research experience abroad is expected.

### Our Offer

The positions are W2 fixed-term positions (6 years) with tenure track to a tenured W3 position (Associate Professor). The professorship is funded by the Federal Tenure Track Programme.

Based on best international standards and transparent performance criteria, TUM offers a merit-based academic career option for tenure track faculty from Assistant Professor through a permanent position as Associate Professor, and on to Full Professor.

TUM provides excellent working conditions in a lively scientific community, embedded in the vibrant research environment of the Greater Munich Area. Furthermore, TUM offers attractive and performance-based salary conditions and additional social benefits.

The TUM Munich Dual Career Office (MDCO) provides tailored career consulting to the partners of newly appointed professors. MDCO gives assistance for relocation and integration of new professors, their partners and accompanying family members.

### Your Application

TUM is an equal opportunity employer. As such, we explicitly encourage applications from women. Applications from disabled people with essentially the same qualifications will be given preference. Application documents should be submitted in accordance with the TUM application guidelines for professors. These and detailed information about the TUM Faculty Recruitment and Career System are available on <http://www.tum.de/faculty-recruiting>. Here, you will also find TUM's information on collecting and processing personal data as part of the application process.

Please send your application in English no later than **May 31, 2019** to the **Dean of TUM Department of Sport and Health Sciences**, Prof. Renate Oberhoffer, Georg-Brauchle-Ring 60/62, 80992 München, **Email: [dekanat.sg@tum.de](mailto:dekanat.sg@tum.de)**.
