From the President....

COVID-19 is on everybody’s mind as the world faces this unprecedented pandemic. I want to devote this edition of the newsletter to resources that may be of assistance to you. These include fact sheets, WHO and U.S. government websites, and observations. I know many of you are working on the front lines to address needs in your communities. Keep up the good work!

Want To Be More Involved in Division 6?

Community and clinical psychologists are actively engaged in addressing the challenges that face our world. We are addressing our community’s mental health and substance abuse needs while addressing the consequences of public health emergencies.

Unfortunately, the work we do can be so demanding that we don’t always have time to tell our peers about what we are learning. Division 6 has always sought to be a forum for sharing information and learning from one another. Every member has something to contribute, and I am asking for your ideas on how we can do so.
Would you like to contribute an article to the newsletter about your research?
Would you like to contribute an article to the newsletter about your clinical work?
Would you like to contribute an article to the newsletter about unique aspects of community and clinical psychology in your country?
Are you interested in serving as a leader in the Division? We welcome help producing the newsletter and developing an Executive Committee for the Division. There are many ways to contribute.
If you are not ready to commit to one of the ideas above, we still want to hear from you. Let us know how the newsletter might be most useful to you.

Thank you to everyone for your commitment to IAAP, Division 6, and the people you serve in your communities. I appreciate you. You can reach me at DrDanDodgen@gmail.com.
