

## Call for Experts This Works in my Place! Africa Edition

Dear IAAP Division 1 members,

After the success of [This Works in my place: Latin America Edition](#), we would like to launch the second edition of this project in relation to **This work in my place: Africa Edition**.

The main goal of the project will be to identify pertinent challenges, opportunities, barriers and any other contextual factors in Africa that shape Work and Organizational Psychology (WOP) strategies and practices in achieving relevant Sustainable Development Goals of the United Nations.

For this reason, we are launching **a call for work and organizational psychology experts**, including academics and practitioners, who can contribute with their knowledge and experience to this project. We are looking for experts who are knowledgeable on the context in Africa regardless of where they currently live. To fully capture the diversity of the African context, we are encouraging participation from as many regions of Africa as possible.

The role of the expert will be to contribute to the different stages of the project such as the workshop, the analysis and classification of contextual factors in Africa, the design of a measurement instrument and participation in a Delphi study.

Please share this call with anyone who might be interested in participating!

To obtain more information about the project and to participate, please email us at [iaapdiv1@gmail.com](mailto:iaapdiv1@gmail.com)

We thank you very much in advance for your participation!

Best regards,

Board of IAAP Division 1 Work and Organizational Psychology

## Job offer: Assistant Professor in Psychology

The Florida Tech I/O Psychology program is hiring! Please see the job ad (link below) seeking applicants for a tenure-track Assistant Professor in Psychology, preferred emphasis on culture and/or DEI, with an anticipated start date of Fall 2023. Please share widely, and reach out to me with any questions! Dr. Jessica Wildman, search committee chair, [jwildman@fit.edu](mailto:jwildman@fit.edu)

More information can be found on this [link](#).

## EAWOP Congress 2023: Call for Reviewers

Dear Colleagues,

EAWOP Congress 2023 is proving extremely popular with work and organisational psychologists from around the world. We have attracted so many submissions that we have around 3,500 first and second reviews to complete. So far we have less than 200 reviewers who have volunteered to do at least 10 reviews each. It doesn't take much in the way of maths proficiency to realise we are very short of reviewers,

We are therefore reaching out to our friends and supporters in the EAWOP International Advisory Group, the extended Programme Committee, the IAAP Division 1 members and of course to all Polish academics. Please help us by volunteering to review. This can be done by using this link <https://eawop2023.org/registration-en/> which will take you to a webpage where you can select the option [Become a reviewer](#). Even if you already have an account, select this option and enter your details (you can use the same email as you may have already used) and you will be taken to a screen with the option "Reviewer Registration Survey". Select that and you can record your reviewer information and preferences. The whole process only takes a minute or two.

Could you also please reach out to your friends and colleagues who may not be on our mailing list and encourage your doctoral students to get involved as well.

If you have already signed up, then thank you, but please still consider increasing the number of reviews you will do and engage in some recruitment of other reviewers.

We are very grateful for any help that you will provide.

*Barbara Kozusznik*

*Chair of the Programme Committee EAWOP Congress 2023*
